登录页面实现

网址：http://129.204.209.31/login.html

1.到 www.58pic.com 等网站中下载登录界面 psd 格式文件

2.切图至每个元素分离

3.新建 css 文件，并在 html 中引用
```
    <head>
        <meta http-equiv="Content-Type" content="text/html;
charset=utf-8" />
        <link rel="stylesheet" href="CSS/style.css">

            <title>李钟硕后台管理</title>

    </head>
```

4.设置页面背景

在 css 中设置页面背景

```css
.bg {
    background: url(../img/bj.jpg) no-repeat center center;
    background-size: 100% 100%;
    -webkit-background-size: cover;
    -o-background-size: cover;
    height: 650px;
    width: 100%;
    height: 100%;
    top: 0;
    z-index: -1;
    position: relative;
}
```

并在 html 中调用

```html
<div class="bg">
```

5.设置登录框

在 css 中设置登录框

```css
.login {
    background: url(../img/login_bg.png) no-repeat center center;
    height: 277px;
    width: 233px;
    margin-left: -116px;
    margin-top: -138px;

    position: absolute;
}
```

5.username 输入框和 password 输入框

```css
.username input {
    color: lightgrey;
    position: absolute;
    background-color: transparent;
    border: 0;
    margin-top: 68px;
    margin-left: 64px;
    width: 130px;
    height: 30px;
    border-radius: 5px;
}

.password input {
    position: absolute;
```

```
        color: lightgrey;
        background-color: transparent;
        border: 0;
        margin-top: 120px;
        margin-left: 64px;
        width: 130px;
        height: 30px;
        border-radius: 5px;
}
```

并在 html 中调用，其中 username 的 input type 设置为 text，password 的 input type 设置为 password

```
<div class="username"><input name="" type="text" placeholder=" 请
输入用户名" /></div>
                                    <div class="password"><input name=""
type="password" placeholder=" 请输入密码" /></div>
```

6.使用 b2.png 来表示登录按钮

```
.login_btn input {
        position: absolute;
        background-image: url(../img/b2.png);
        width: 162px;
        height: 34px;
        margin-top: 200px;
        margin-left: 34px;
        cursor: pointer;
        overflow: hidden;
        border-radius: 6px;
        text-indent: -9999px;
        border: 0;
}
```

选中时，

```
.login_btn input:focus {
        outline: 1;
        border: 1px solid gray;
        box-shadow: gray;
}
```

最终效果

全部代码

login.html

```html
<!DOCTYPE html>
<html>

    <head>
        <meta http-equiv="Content-Type" content="text/html;
charset=utf-8" />
        <link rel="stylesheet" href="CSS/style.css">

            <title>李钟硕后台管理</title>

    </head>

    <body>
        <div id="container">
            <div class="bg">
                <div class="login_main">
                    <div class="login">
                        <form action=# method="POST"
class="login_form">

                            <fieldset>

                                <legend>登录</legend>

                                <div class="username"><input name=""
type="text" placeholder=" 请输入用户名" /></div>

                                <div class="password"><input name=""
type="password" placeholder=" 请输入密码" /></div>
```

```html
                                <div class="login_btn"><input name=""
type="button" value="login" /></div>
                              </fieldset>
                        </form>

                        <div class="forget"><a href=#>忘记用户名或密

码?</a></div>

                  </div>
              </div>
          </div>
        </div>
    </body>

</html>
```

CSS/style.css

```css
/*---------global style----------*/

* {
    margin: 0;
    padding: 0;
}

li {
    list-style: none
}

img {
    vertical-align: top;
    border: none
}

legend {
    display: none
}

fieldset {
    border: none
}

a {
    text-decoration: none
}
```

```css
a:hover,
a:active {
    text-decoration: none
}

.clear {
    clear: both;
}
/*--------login style----------*/

body {
    height: 100%;
    width: 100%;
    font: 12px;
    font-family: Microsoft YaHei;
    position: relative;
    margin: 0;
    color: #000000;
}

#container {
    width: 100%;
    height: 100%;
    box-shadow: 0 0 15px #7a5555;
    margin: 0 auto;
    margin-top: 1% auto;
    overflow-x: hidden;
    position: fixed;
    top: 0;
    bottom: 0;
}

.bg {
    background: url(../img/bj.jpg) no-repeat center center;
    background-size: 100% 100%;
    -webkit-background-size: cover;
    -o-background-size: cover;
    height: 650px;
    width: 100%;
    height: 100%;
    top: 0;
    z-index: -1;
    position: relative;
```

```css
}

.login_main {
    float: center;
    position: absolute;
    top: 50%;
    left: 50%;
}

.login {
    background: url(../img/login_bg.png) no-repeat center center;
    height: 277px;
    width: 233px;
    margin-left: -116px;
    margin-top: -138px;

    position: absolute;
}

.username input {
    color: lightgrey;
    position: absolute;
    background-color: transparent;
    border: 0;
    margin-top: 68px;
    margin-left: 64px;
    width: 130px;
    height: 30px;
    border-radius: 5px;
}

.password input {
    position: absolute;
    color: lightgrey;
    background-color: transparent;
    border: 0;
    margin-top: 120px;
    margin-left: 64px;
    width: 130px;
    height: 30px;
    border-radius: 5px;
}

input:focus {
```

```css
    outline: none !important;
    border: 1px solid gray;
    box-shadow: 0 0 10px gray;
}

.login_btn {
    text-align: center;
    position: absolute;
    border: 0;
    box-shadow: grey;
}

.login_btn input {
    position: absolute;
    background-image: url(../img/b2.png);
    width: 162px;
    height: 34px;
    margin-top: 200px;
    margin-left: 34px;
    cursor: pointer;
    overflow: hidden;
    border-radius: 6px;
    text-indent: -9999px;
    border: 0;
}

.login_btn input:focus {
    outline: 1;
    border: 1px solid gray;
    box-shadow: gray;
}

.forget {
    margin: 170px 0 0 32px;
    height: 30px;
    font-size: 12px;
    position: absolute;
    font-family: Arial, Helvetica, sans-serif;
}

.forget a {
    color: lightgrey;
    text-decoration-style: solid;
}
```

```css
.forget a:hover {
    color: whitesmoke;
}
```

介绍网站完善
网址：
在介绍网站中添加了 css
首先添加居中样式，使元素居中

```css
.ct{
    text-align: center;
}
```
调用：

```html
        <div class="ct">

        <h1>李钟硕</h1>

        <h2>韩国男演员、模特</h2>

        </div>
```
效果

<div style="text-align:center">

李钟硕

韩国男演员、模特

</div>

添加浮窗效果

```css
.fl{
    float:left;
}
.fr{
    float:right;
}
```
调用
```html
<img class="fr" src="img/lizhongshuo4.jpg"/>
        <img class="fl" src="img/lizhongshuo5.jpg"/>
```
